Hi, my name is Len Zell and I co-published the Great Desert Tracks road atlas with Hema Maps. I've travelled more than a million km's of Australia, and let me tell you, the VMS navigator has taken me places! It has helped me out of sticky situations and helped me discover some of the iconic attractions our great country has to offer.

For me it comes to adventure, but most importantly, safety! So come on and join me and "Find A New Path" with VMS!
