

Isuzu D-Max 2012+ Steering Wheel Control Connection

1. Join Key 1 (from the VMS harness) to White w/ red trace
2. Power unit it on and go into SWC mode
3. Press volume up on the unit to learn
4. Whilst holding volume up on the steering wheel, tap the white w/ black trace to ground (from the VMS harness)
5. Continue with rest of the functions
6. When all functions have been learnt, connect the white w/ black trace to ground.
