

Mitsubishi Triton 2013+ GLX-R (Apply to P8000-0014T)

Steering Wheel Control Wires can be found on one of the radio harnesses as shown below (either a 22 PIN connector or a 14 PIN connector depending on the year of your Triton GLX-R):

22 PIN Connector

14 PIN Connector

The wires required are:

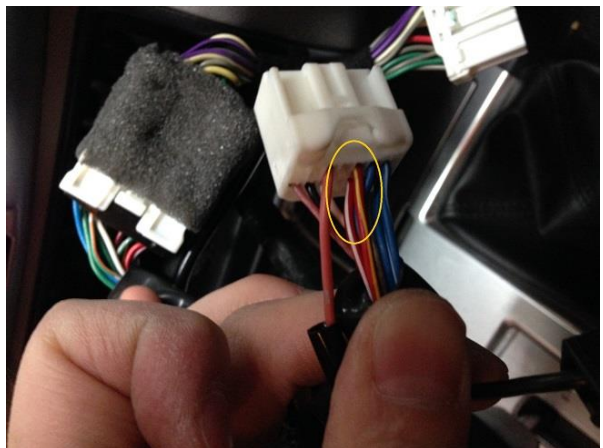

*RED with a white trace → Connect to the wire marked KEY1 at the VMS wiring loom

*RED with a yellow trace → Connect to the wire marked GROUND at the VMS wiring loom

*The same colour configuration for both different versions of Triton GLX-R looms

22 PIN Version

14 PIN Version
